

Geography is my favourite! I like to learn interesting things about different countries.

I like looking at maps and flags from different countries.

Me and my friends investigated how many different countries there were and thought about the weather in them. It was so fun!

I like to learn interesting things about different countries, such as South America.

I like looking at maps and flags from different countries.

I like google maps

I liked it when we had to search for mountains and rivers on Maps of the UK.

I liked it when we learnt our compass points and 4 figure grid references.
